

Title: Subtle and strategic placement for facial contouring using HA filler injection".

Thanya Techapichetvanich, M.D.

Assist. Prof. Siriraj Hospital,
Mahidol University

In my lecture I will focus on how to achieve facial contouring and lifting results by utilizing fine amount of filler but obtain effective outcome in middle-aged women which composed of

- 1) Main demand of 30-40s patients to counteract aging.
- 2) How to select strategic locations and how to choose HA filler properties to target prominent focal areas to refine/define/beautify the face.
- 3) My techniques and clinical practice experience and case sharing of HA filler in 30-40s patients.
