

**(Symposium) Presentation title:** The Benefits and Potentials of the Latest Gentle Series

**Date:** 6/24(Sat) 17:10-17:30 / 3F Crystal B

**Proposed Abstracts:** Candela's Gentle devices have been one of the top choices for practitioners, not only because of its outstanding performances on laser hair removal, but also the abilities in treating pigmentations, vasculatures, and beyond. The innovation has continued with the latest addition to the legacy Gentle Series - the GentleMax Pro Plus™ (GMPP) system, with 2023 marking the 25 years of Gentle™ providing treatment options to improve patients' clinical results. The presentation will share on the added features of GMPP and the potentials of this laser in the dermatological world.
